Chapter 1

Esempio Semafori con Pthreads

1.1 Introduzione

Esempio di utilizzo semafori

Date

20/06/2016

Version

0.0.0.1

Author

A.Dal Palu con modifiche

Chapter 2

File Index

2.1 File List

Here is a list of all files with brief descriptions:

semthread.c	5
---------------------------------------	---

Chapter 3

File Documentation

3.1 semthread.c File Reference

```
#include <stdio.h>
#include <unistd.h>
#include <semaphore.h>
#include <pthread.h>
```

Functions

- void * [thread1](#) (void *arg)
semafori
- void * [thread2](#) (void *arg)
Codice del thread2 Il thread fa Pong e fa UP sul semaforo dell'altro thread.
- int [main](#) ()

Variables

- static sem_t [s1](#)
- static sem_t [s2](#)

3.1.1 Function Documentation

3.1.1.1 int main ()

Definition at line 52 of file semthread.c.

References [s1](#), [s2](#), [thread1\(\)](#), and [thread2\(\)](#).

3.1.1.2 void* thread1 (void * *arg*)

semafori

Codice del thread1 Il thread fa Ping e fa UP sul semaforo dell'altro thread

Definition at line 23 of file semthread.c.

References s1, and s2.

Referenced by main().

3.1.1.3 void* thread2 (void * *arg*)

Codice del thread2 Il thread fa Pong e fa UP sul semaforo dell'altro thread.

Definition at line 39 of file semthread.c.

References s1, and s2.

Referenced by main().

3.1.2 Variable Documentation

3.1.2.1 sem_t s1 [static]

Definition at line 17 of file semthread.c.

Referenced by main(), thread1(), and thread2().

3.1.2.2 sem_t s2 [static]

Definition at line 17 of file semthread.c.

Referenced by main(), thread1(), and thread2().
